Title of project: Fifth Conference on Molecular Reaction Dynamics in Condensed Matter

Reporting period: 01 Jan. 1998 -- 31 May 1998

2. Status of effort

The Fifth Conference on Molecular Reaction Dynamics in Condensed Matter was held Feb. 10-13 at Newport Beach California, sponsored by AFOSR and ONR, and organized by D. Dlott and A. Apkarian. (Apkarian took over from Charles Wight of Utah). There were 42 attendees, including professors, graduate students, postdoctoral fellows, and technical staff members from national laboratories (LANL, PNL, NIH, etc.). 34 talks were presented. There were 21 invited talks (50 minutes with discussion) and 13 contributed talks (20 minutes with discussion). Lively discussion went on late into the morning.

Funding provided by AFOSR and ONR was used to reimburse travel and lodging for invited speakers. Vouchers for all available funding have been submitted and it is expected that all available funds will be used when these vouchers have finally cleared.

Symposia on the following topics were presented:

- 4. Nanochemistry
- 5. Condensed phase dynamics and chemical reactions
- 6. Vibrational relaxation

A list of attendees and a summary of talks presented is attached.
